"Right is More Precious than Peace"

NO FAVORS FOR GERMANY.

That Bulgaria is not the only one of the central powers which is anxious to talk peace is indicated by the appeal which has been sent forth by Prince Maximilian, the new German chancellor, asking for an armistice and the terms of the entente nations, and which attitude it is stated is supported by Austria-Hungary and Turkey. If the early reports regarding this appeal are true it is apparent that while the action of Bulgaria has undoubtedly had its effects the successful offensive which is now being conducted by General Foch is likewise causing the enemy to realize that the day is up and that it is time to do everything possible to get under cover. Germany sees its armies being driven back every day and it realizes that it is only a question of time when German soil is going to be reached. It appreciates what it has been doing in Belgium and France and it is anxious to preserve the fatherland from invasion, and by speaking now it hopes to secure advantages which could not be sought later on.

ADJOURNING TOWN MEETING.

In view of the importance of a large attendance at the annual town meeting it is action which has been taken by the health officer in asking for it and by the selectmen in announcing that it will be adjourned from tonight until a week from tomorrow night, Tuesday, October 15, because of the epidemic the gathering would have been an inadvisable as a church meeting and many would undoubtedly have felt constrained to stay away as much as they would have considered it their duty to attend under normal conditions.

EDITORIAL NOTES.

The Kaiser of course is getting a lot of talk about the fact that Lenin and Trotsky are still on the job. The man on the corner says: Don't ever let it be said that Norwich was behind on its Liberty loan obligations. Even if Germany fears that it will run short of ammunition, it is quite evident that there is no lack of firebrands.

LUXEMBURG WORRIED.

There can be no surprise if the grand duchy of Luxembourg is a bit worried over coming events. This little country lies between Germany and Belgium abutting Lorraine on the south and the people of that country are fully acquainted with German methods. They know how their rights were trodden upon when Germany decided to go into Belgium. It was much more convenient for the Germans to plow right through Luxembourg than it was for them to confine themselves to the narrow passageway into Belgium between Luxembourg and Holland, so the grand duchy had to submit.

AVOID PAPER WASTE.

The national movement for the prevention of waste of paper is being launched on a broad scale, but none too broad if there is to be accomplished what is needed and what is sought. Paper has been regarded as a commodity to be had in such quantities that little thought has been given to saving it in the past. At the present time, however, materials which are required in the making of paper are in such demand for war purposes and fuel is so scarce that it is necessary to bring about a big reduction in the paper making business. And in the case of paper as in many other instances this is entirely possible.

WOMAN IN LIFE AND IN THE KITCHEN

SUGGESTIONS FOR THE HOUSEWIFE

Baked bananas are an agreeable change in cooked fruits.
Two minutes in boiling water will set the white of an egg.
Simple sweets are essential to the proper growth of a child.
Hot scones made partly of oatmeal are delicious for tea.
Fat and flavor should be supplied to fish by sauces and relishes.
Young green vegetables should be cooked in salted boiling water.
A three pound loaf of bread is good for keeping fish in the ice box.
It is much easier to make several small omelets than one large one.
Children should not be allowed to eat anything but fruit between meals.
Constant nibbling is the cause of indigestion and prevents proper eating at the table.
If you wish to be very economical with olive oil mix it—equal parts—with pure cottonseed oil.
It is better management to buy sweet potatoes in small quantities only.
The fewer things in the shape of china and silver on exhibition in a dining room the better.
Use skim milk instead of water in cooking cereals if you would add to their nutritive value.

DISCOUNTING THE DESTRUCTION

Word is now received to the effect that the Germans in retreating from Lens and the coal mining region surrounding that place have not overlooked the destruction of the coal mines and the buildings of the city, so that the whole locality as found by the troops which have occupied it is one great mass of ruins.
This of course causes no surprise, in fact it would have been a great surprise if it had not been disclosed that the Germans had retired and left everything or even the buildings intact. They have followed out the same policy which has been practiced by them elsewhere and which has come to be known as one of their characteristics. When it comes to depredations the Germans throughout the war have shown themselves to be the leaders amongst all the central powers and even the knowledge that they can expect no better from the allied nations when German territory is reached has not deterred them in their actions.
By crippling the coal mines and destroying all the industries in Lens the Germans have done all they could. They knew they were placing obstacles in the way of the allies but in doing their worst it was not possible for them to prevent the preparations which have been made by the allies for meeting just such a situation. Their work was anticipated as is indicated by the announcement that the allies have assembled quantities of new mining machinery and a large number of miners to deal with the situation found there. And in this American are going to play the same important part which they have played in other service in France. It may take longer because of the destruction to get the benefit of the coal region but with Americans tackling the job it is sure to come.

RESTORES COLOR.

To restore the color of faded blue stockings, dip them into hot boiling water in which a few lumps of alum have been dissolved. This is a good way to color children's old white stockings blue.

HEALTH AND BEAUTY.

It is far preferable to remove the dirt and dirt from the pores of the face by a good cold cream massage than by washing the face in hot water.
As a matter of fact it is better never to use extremely hot water on the face.
If, however, it is found necessary to remove the treatment of blackheads, its use should always be followed by an application of much cold water and an ice rub whenever convenient.
Never under any conditions use hot water upon the complexion before going out into the cold air.
When one anoints the head with olive oil and this loosens dandruff the oil should be allowed to remain on for two hours. Then the head should be shampooed with a mixture of one raw egg to half a pint of lime water (cold). After having rubbed this in to scalp the head should be thoroughly rinsed several times in clear warm water. The water must not be heated and if not too much oil has been rubbed into scalp the warm water rinse should remove it satisfactorily.
The person who is not overstrong, who complains about not having any appetite should tell if he or she kept out of doors as much as possible in zero weather. Fresh air and freezing winds are at that and sparkling sunshiny are doing more to keep him more to keep him feeling fit than all the tonics and elixirs in the world.
Only a very foolish woman will dread cold weather. In the dead of winter she should be in the joys of it. On the other hand if the word "keep up" and, incidentally, keep stronger and younger looking, she will go out every clear day, regardless of the temperature.

USES FOR WORN HOSE.

What do you do with the legs of your worn out hose? They may be spun into yarn and made into cushioning slippers, etc.
Cut off the heel or rib top and cut them round and round into one long strip about three-fourths of an inch wide, down to the heel. Roll the ends and sew together neatly. Spin into yarn by drawing it directly over the sharp edge of a wood box. It will curl up round and smooth like yarn.
Then crochet it into slippers, rugs, etc. Silk hose make very pretty slippers by finishing the top with some of the brighter colors.
Cotton hose make nice rugs that are durable and heavy and lie flat.
Cotton or wool hose make good holders.
Cut off foot, fold square and work edge with a buttonhole stitch with some bright colored yarn or silk and fasten a ring to each corner. They are pliable in the hand, easily washed and do not heat through like cloth.
They also make excellent dust rags. Cut off foot and work the ends together, laying them one top to the other bottom. They gather the dust much better than a cloth and are more easily washed.

COTTON CASTLE.

With the increasing scarcity of linens, ginghams and other cotton stuffs have acquired a place of first importance in the summer wardrobe. Simple

LEGAL NOTICES

NOTICE

Registrars of Voters

The Registrars of Voters of the Town of Norwich will meet in the several voting districts in said town on

Monday, October 14, 1918

from 9 o'clock a. m. until 5 o'clock p. m. to complete a correct list of all electors in said voting districts who will be entitled to vote therein at an election meeting to be held on Tuesday following the first Monday of November, 1918, and for receiving applications from those "To Be Made" in said district, to wit:

Is the First Voting District—at the Selectmen's Office, City Hall.

In the Second Voting District—at the store of William D. Ricker, 276 West Main Street, West Side.

In the Third Voting District—at the store of William H. Bowen, Greenville.

In the Fourth Voting District—at the store of Patrick T. Connell, Norwich Town.

In the Fifth Voting District—at the Ponemah Large Hall, Fairville.

In the Sixth Voting District—at Billings Hall, Hamilton Avenue, East Norwich.

Dated at Norwich, Conn., this 7th day of October, 1918.

TYLER D. GUY,
CORNELIUS J. DOWNES,
Registrars of Voters.

NOTICE

ANNUAL TOWN MEETING.

The legal voters in Town Meeting of the Town of Norwich are hereby warned to meet in Annual Town Meeting in said town at the Court House Building, on Monday, Oct. 14, 1918, at 8 o'clock in the evening, to hear and act upon the annual report of the Selectmen and their recommendations, the reports of the Town Treasurer, the reports of the Town School Committee, and the report of the Trustee of the Old Library, to grant salaries to lay a tax to meet the expenses of the Town, including the expenses of the public schools, for the ensuing year, and to fix the compensation of the Tax Collector.

Also to determine whether the Town will authorize the Selectmen to borrow a sum not to exceed One Hundred and Seventy-five Dollars (\$175.00), in such sums and at such times during the twelve months ensuing as may be necessary to defray the debts and obligations of the Town, and to determine whether the Town will appropriate a sum not exceeding Three Thousand Dollars (\$3,000) for the purchase of the use of the Yantic Fire Engine Company.

Also to determine whether the Town will appropriate a sum not exceeding Fifteen Hundred Dollars (\$1,500) for the purchase of the use of the Yantic Fire Engine Company.

Also to determine whether the Town will appropriate a sum not exceeding Fifteen Hundred Dollars (\$1,500) for the purchase of the use of the Yantic Fire Engine Company.

Also to determine whether the Town will appropriate a sum not exceeding Fifteen Hundred Dollars (\$1,500) for the purchase of the use of the Yantic Fire Engine Company.

Also to determine whether the Town will appropriate a sum not exceeding Fifteen Hundred Dollars (\$1,500) for the purchase of the use of the Yantic Fire Engine Company.
